SECTION I - FRESHNET MISCELLANEOUS FORMS & REFERENCES

Definition of Terms

| | |
|---|--|
| DFV PH-25 | The official document used to ship fruit. Commonly referred to as a manifest. |
| COMMIT | To electronically transmit or print a document. |
| DOWNTIME | Refers to time that the electronic process is not functional. This may be due to problems with several different aspects such as, but not limited to online availability, hardware failure (printers, computer, etc.). |
| ELECTRONIC TRANSFER OR EXPORT MANIFEST | Electronic Transfer of data commonly referred to as ETF. |
| HOME PAGE (CitraNet/FreshNet) | Refers to the web address, https://citranet.fdacs.gov/ , from which all data transmission is initiated. |
| IMPORT MANIFEST | To electronically transmit a document created outside of the FreshNet site. |
| INTERNET BROWSER | The program in which one views the world wide web (internet). Some examples are, Internet Explorer, Netscape Navigator and AOL. |
| COMPUTER GENERATED FORMS | Forms (Manifests) that are both generated and printed by the individual packinghouse. |
| ONLINE MANIFEST | Available once a supplier/packinghouse has logged on to the FreshNet website as a means of generating, electronically transmitting, and printing a manifest using the Division of Fruit and Vegetables software. |
| PREPRINTED FORMS | Forms (Manifests) that are printed by a professional printing business. |
| REBOOT | The process of shutting down your computer and restarting. |

Definition of Terms (continued)

| | |
|-------------------------------|---|
| SUBMIT | To provide information electronically. |
| SUPERSEDE | A manifest that is issued to take the place of an incorrect manifest. |
| SUPPLIER ID | A unique number assigned by the Division of Fruit and Vegetables which identifies a supplier of citrus fruit to a processor or a registered packinghouse. |
| TRANSMIT | To electronically send data through a computer system. |
| UPLOAD MANIFEST | To transmit data via the ETF process. |
| USER ID & PASSWORD | Refers to the process in which a supplier/packinghouse accesses the CitraNet website for purposes of viewing processed test results or Uploading of manifest data via electronic process. The Division of Fruit and Vegetables assign all the Supplier ID, User ID and Password. Note: Passwords are controlled by the individual Supplier/Packinghouse after initial login to the CitraNet website. |
| VOID | A manifest that has not been upload in which all copies are present and meet all requirements of Division of Fruit and Vegetables and/or Department of Citrus Rules and Regulations. |

Freshnet Shipper's Clerk Manual 2019

Requirements of Manifest (DOC Rule 20-40)

CHAPTER 20-40 LOADING MANIFESTS TO BE FURNISHED TO THE INSPECTOR - FRESH CITRUS FRUIT

| | | | |
|------------------|-------------------------------------|------------------|--------------------------------------|
| 20-40.001 | Requirements of Manifest | 20-40.004 | Manifest Under PIQ Program |
| 20-40.002 | Fruit for Export | 20-40.005 | Mandatory Automated Reporting |
| 20-40.003 | Failure to Furnish Manifests | | |

20-40.001 Requirements of Manifest

Each shipper shall deliver to the inspector a copy of the loading manifest on each shipment of citrus fruit, which manifest shall indicate, in addition to other information prescribed by the Department of Agriculture, the following:

- 1) Name and registration number of shipper.
- 2) Date of shipment.
- 3) Grade of fruit.
- 4) Brand or trademark, if applicable.
- 5) Railroad car number; truck or trailer license number.
- 6) Variety of fruit:
 - a) Oranges shall be classified as early, midseason, or late.
 - b) Grapefruit shall be classified with a notation as to whether it is a seeded or seedless variety and a notation as to whether it is a white or colored variety.
 - c) All other varieties shall be classified in conformity with Department of Citrus Rule Chapter 20-13, F.A.C.
- 7) Size or weight of fruit and type of container:
 - a) Itemized list of fruit sizes or range of sizes for each grade, variety of fruit and type of container.
 - b) When container content is shown in terms of weight, itemized list showing weight, variety of fruit and type of container.
 - c) For bulk fruit, fruit sizes shall be estimated by the inspector and shipper together.
- 8) "Color Added," if appropriate.
- 9) If fruit was packed in a different production area in this state from that in which it was grown, the production area shall be indicated as defined in Section 601.091, Florida Statutes.
- 10) Destination of shipments:
 - a) City and State in U.S.A. and city and province in Canada or Mexico.
 - b) Shipments to points in Florida shall show whether destination is east or west of Suwannee River.
 - c) Offshore export shall show Country.

Freshnet Shipper's Clerk Manual 2019

November 20, 2019

Requirements of Manifest (DOC Rule 20-40) (continued)

11) Signature of person authorized to sign for shipper.

Specific Authority 601.10(1), 601.11 FS. Law Implemented 601.091, 601.11, 601.46, 601.52, 601.99 FS. History—Formerly 105-1.09(1), Revised 1-1-75, Amended 8-17-77, Formerly 20-40.01, Amended 3-28-90, 12-21-93, 8-22-94, 8-30-95, 12-5-02.

20-40.002 Fruit for Export

If fruit is packed for export, the manifest shall state if for commercial export or export by a governmental agency, and shall state the port of embarkation.

Specific Authority 601.10(1), 601.11 FS. Law Implemented 601.11, 601.46, 601.52 FS. History—Formerly 105-1.09(2), Revised 1-1-75, Formerly 20-40.02.

20-40.003 Failure to Furnish Manifests

Loading manifests shall accompany original inspection certificates. The inspector shall not furnish certificates of inspection until such manifests have been delivered to him.

Specific Authority 601.10(1) FS. Law Implemented 601.02(4), (5), 601.52 FS. History—Formerly 105-1.09(3), Revised 1-1-75, Formerly 20-40.03.

20-40.004 Manifest Under PIQ Program

Packinghouses approved by the United States Department of Agriculture and the Florida Department of Agriculture, Division of Fruit and Vegetables to operate under the PIQ (Partners in Quality) Program shall furnish a loading manifest for each shipment of citrus fruit. The loading manifest shall contain all information required by this chapter and shall be furnished in a manner prescribed by "Specifications for PIQ Program Quality Assurance Systems" dated 6-14-95, incorporated herein by reference.

Specific Authority 601.10(1) FS. Law Implemented 601.46, 601.52 FS. History—New 8-30-95.

20-40.005 Mandatory Automated Reporting

As of August 1, 2001 and thereafter, each shipper shall provide to the Department of Agriculture and Consumer Services, Division of Fruit and Vegetables an automated loading manifest containing all of the information required by this chapter in a form and manner prescribed by the Division. Shippers that shipped less than 15,000 4/5 bushel cartons the previous shipping season are not required to provide information via the automated loading manifest for the current shipping season, but shall provide said information in a written form and manner prescribed by the Division. The Division shall then input and update the manifests from the smaller shippers into the database.

Specific Authority 601.10(1), (8), 601.15(1), (2), (4), (10), 601.155(7), 601.28(4), 601.69, 601.701 FS. Law Implemented 601.10(8), 601.15(1), 601.155(7), 601.69 FS. History—New 3-11-01, Amended 9-18-01.

SECTION II – ADMINISTRATIVE POLICIES & PROCEDURES

Compliance Requirements

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|---------------------|-------------------|-----------------------|
| SUBJECT: | FreshNet Compliance | No. 1-1 | Page 1 of 1 |
| | | Effective: | August 1, 2002 |
| | | Revised: | August 8, 2008 |
| APPROVED: | | Bureau: | Citrus |

I. TITLE: Compliance Requirements

II. PURPOSE

This policy and procedure is intended to provide guidelines for FreshNet Compliance.

III. GENERAL

All registered Packing Houses who shipped 15,000 4/5 bushel cartons or more in the previous citrus season will be required to become FreshNet compliant as stated in Department of Citrus Rule 20-40.005 *Mandatory Automated Reporting*. **(See Attachment A)**

All packing houses are taken out of production mode at the end a citrus season and a packing house **cannot** transmit data at the commencement of a new citrus season. Once the requirements outlined below are met a packing house will revert to production mode and transmission of data will be accepted.

IV. PROCEDURES

- A. At the commencement of each citrus season the following requirements must be met for a Packing House to be FreshNet compliant and begin transmission of data:
1. Submit current season FreshNet Application form DACS-07120 and Beginning Manifest Number Notification form DACS-07119. **(See Attachment B and C)** These forms can be found on the Division's Citranet website: <https://citranet.fdacs.gov/FormsFNetList.html> and clicking on the FreshNet Application and the Beginning Manifest Number Notification link.
 2. At commencement of a new citrus season a packing house must contact the Technical Section of the Division of Fruit and Vegetables be put into production mode which will allow transmission of data.

Manifest

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|-----------------------------------|-------------------------------------|---|
| SUBJECT: | Manifest Form No. D.F.V. PH-25 | No. 2-1 Effective: | Page 1 of 2 August 1, 2002 |
| | | Revised: | August 1, 2005 |
| APPROVED: | | Bureau: | Citrus |

I. TITLE: Manifest

II. PURPOSE

This policy and procedure is intended to provide guidelines on the printing of manifests, both pre-printed and computer (laser) generated Form No. D.F.V. PH-25 (7-95) (See **Attachment A**)

III. GENERAL

Currently the Division of Fruit and Vegetables accepts both pre-printed and computer (laser) generated manifests.

IV. PROCEDURES

A. Pre-printed Manifest Forms

1. When pre-printed manifests are ordered the Shipper's designated printer must contact the Division of Fruit and Vegetables - Statistical Office for verification of the Shipper's next numbering sequence to be printed.
2. The Shipper's designated printer must submit to the Division of Fruit and Vegetables - Statistical Office a printer notice verifying the manifest number sequence that was printed. This notice must also contain any missing number(s) and/or number sequences caused by printing error.
3. Shippers must account for and inventory manifests.

B. Computer (Laser) Generate Manifest Forms

1. First time users of computer (laser) generated manifest forms must contact the Division of Fruit and Vegetables - Statistical Section at 863-578-1935, to obtain the beginning manifest number.

Freshnet Shipper's Clerk Manual 2019

November 20, 2019

Manifest (continued)

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|-----------------------------------|-------------------|-----------------------|
| SUBJECT: | Manifest Form No. D.F.V. PH-25 | No. 2-1 | Page 2 of 2 |
| | | Effective: | August 1, 2002 |
| | | Revised: | August 1, 2005 |
| APPROVED: | | Bureau: | Citrus |

2. Maintain an automated sequential numbering system that will be incremented each time a manifest is produced.
3. Use a watermark displaying the word "PINK" on the Roadguard copy of the shipping document in lieu of a pink colored copy.
4. Shippers must account for all manifests.

Failure to comply with the policy and procedure set forth for computer (laser) generated manifest forms will result in the Shipper reverting back to using pre-printed manifests.

Manifest Numbering

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|-----------------------------------|--|--|
| SUBJECT: | Manifest Form No. D.F.V. PH-25 | No. 2-2 Effective: Revised: | Page 1 of 2 August 1, 2002 August 1, 2005 |
| APPROVED: | | Bureau: | Citrus |

I. TITLE: Manifest Numbering

II. PURPOSE

This policy and procedure is intended to provide guidelines on the numbering of manifests, Form No. D.F.V. PH-25 (7-95) **(See Attachment A)**

III. GENERAL

Manifest numbering sequence must be used in sequential ascending number order (lowest to highest). Software programming must disallow duplication of the same manifest number(s). **This field must not be accessible to the user for any reason.** No hand alteration of a manifest number(s) is allowed (i.e., striking out printed manifest number and issuing a new number. The manifest number is a 10-bit field. Once a manifest number reaches 9999999, the numbering sequence shall revert back to 1000.

IV. PROCEDURES

A. At the commencement of each citrus season, shippers must notify the Division of Fruit & Vegetables, Technical Section, of the beginning manifest sequence number that they will use for the upcoming season. This information is recorded on the Beginning Manifest Number Notification Form No. DACS-07121. **(See Attachment B)** This form can be found on the Division's Citranet website: <https://citranet.fdacs.gov/FormsFNetList.html> and clicking on the FreshNet Application Beginning Manifest Number Notification link.

B. All software must be programmed to use manifest numbers in sequential number order. The program must automatically advance to the next sequential numbered manifest once a number has been used.

1. If a manifest is unable to be printed for any reason or there is a skip in the numerical sequence of the pre-printed manifest forms a Shipper must submit to the Division of Fruit and Vegetables a Manifest Notice for Non-Printed/Skipped Numbers. **(See Attachment C)** This form can be found on the Division's Citranet website: <https://citranet.fdacs.gov/FormsFNetList.html>.

Manifest Numbering (continued)

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|-----------------------------------|-------------------------------------|---|
| SUBJECT: | Manifest Form No. D.F.V. PH-25 | No. 2-2 Effective: | Page 2 of 2 August 1, 2002 |
| APPROVED: | | Revised: Bureau: | August 1, 2005 Citrus |

- C. Authorization must be given by the Division of Fruit & Vegetables for a Shipper to borrow (transfer) and/or purchase pre-printed manifest forms from another Shipper.
1. Once authorization has been obtained from the Division, each of the parties involved in the purchase/transfer of the manifests must submit to the Division of Fruit and Vegetables a notarized statement outlining the purchase/transfer. **(See Attachment D)**
 2. The notarized statement should be submitted by the respective parties to the Division of Fruit & Vegetables, Statistical Office, at 170 Century Blvd., Bartow, FL 33830.
 3. A Packing House who uses the FreshNet system and has purchased and/or borrowed manifests from another Shipper **will not be able to upload data to the Division of Fruit and Vegetables.** The Packing House that purchased and/or borrowed the manifests must notify the Division of Fruit and Vegetables –Technical Section that they are using purchased and/or borrowed manifests. All of the purchased and/or borrowed manifest that is utilized during that time frame will need to be submitted to the Division of Fruit and Vegetables for manual input.

Voided Manifests

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|-----------------------------------|-------------------------------------|---|
| SUBJECT: | Manifest Form No. D.F.V. PH-25 | No. 2-3 Effective: | Page 1 of 2 August 1, 2002 |
| APPROVED: | | Revised: Bureau: | August 1, 2005 Citrus |

I. TITLE: Voided Manifests

II. PURPOSE

This policy and procedure is intended to provide guidelines on voiding a manifest(s).

III. GENERAL

Once a manifest has been printed no changes and/or alterations of any type will be permitted. Changes to a printed manifest(s) are only permitted by superseding or voiding that manifest(s).

IV. PROCEDURES

A. Manifest(s) can be voided only if the manifest(s) has not been disbursed (all the copies are on hand and none have left the Shipper's premises) and the manifest(s) has not been transmitted to the Division of Fruit and Vegetables over the FreshNet system.

1. The word ***"VOID"*** must be written in large letters in the body of Section I of the manifest(s). **(See Attachment A)**
2. The following statement must be written in the body of Section I on all voided manifest(s): ***"Inspection Office and Roadguard (pink) copy to Bartow, Applicant one copy, and remainder of copies were destroyed."*** **(See Attachment A)**
3. The Shipper's name and registration number must appear in the appropriate places on the voided manifest(s).
4. The Inspector's or Shipper representative's at PIQ houses signature must appear on all copies of the manifest.

Freshnet Shipper's Clerk Manual 2019

November 20, 2019

Voided Manifests (continued)

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|-----------------------------------|--|--|
| SUBJECT: | Manifest Form No. D.F.V. PH-25 | No. 2-3 Effective: Revised: | Page 2 of 2 August 1, 2002 August 1, 2005 |
| APPROVED: | | Bureau: | Citrus |

5. The Inspector or the Shipper representative's at PIQ houses must destroy all copies of a voided manifest with the exception of the following: Inspection Office, Roadguard (pink) and the applicant's copies. Inspection Office and the Roadguard (pink) copies are to disburse to the Division of Fruit and Vegetables. The applicant's copy should be retained by the individual packing house for their records.
6. If the manifest number on the voided manifest has been rendered illegible (i.e., torn, ripped off), record below the original location of the manifest number what the manifest number is. If you have in your possession the torn number, it is permissible to tape or staple the number in place.
7. The manifest notice code recognized by the FreshNet system for a voided manifest(s) is VO.

Failure to comply with the policy and procedures set forth for voided manifests will result in "VOIDED" manifest(s) to be BILLED.

Freshnet Shipper's Clerk Manual 2019

November 20, 2019

Example of Voided Manifest

FLORIDA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES
DIVISION OF FRUIT AND VEGETABLE INSPECTION, DIVISION OF PLANT INDUSTRY

This document is issued in compliance with the Florida Department of Citrus Rules and Marketing Order 905 governing the inspection of the Florida citrus fruits and the statutes of the State of Florida. The making of any false statements or representation in any matter within the jurisdiction of any agency of the United States, knowing it to be false, is a violation of Title 18, Section 1001, United States Code, which provides for a penalty of a fine of \$10,000.00 or imprisonment of not more than five years or both.

Superseding Manifests

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|-----------------------------------|--|--|
| SUBJECT: | Manifest Form No. D.F.V. PH-25 | No. 2-4 Effective: Revised: | Page 1 of 2 August 1, 2002 August 1, 2005 |
| APPROVED: | | Bureau: | Citrus |

I. TITLE: Superseding Manifests

II. PURPOSE

This policy and procedure is intended to provide guidelines on superseding a manifest(s).

III. GENERAL

Once a manifest has been printed no changes and/or alterations of any type will be permitted. Changes to printed manifest(s) are only permitted by superseding or voiding that manifest(s).

IV. PROCEDURES

A. Once a manifest has been transmitted to the Division of Fruit and Vegetables no changes and/or alterations of any type are permitted. If changes to a manifest are needed, a manifest(s) will need to be superseded.

1. When a manifest is superseded, you must generate a new manifest to take the place of the original manifest.
2. The following statement must appear in the body of Section I of the new manifest: "**Supersedes manifest number XXXX** (original manifest number) **dated 00/00/00** (original manifest issue date). This statement needs to be in a larger and bolder lettering. **(See Attachment A)**
3. The issue date of a superseding manifest must be the date the new manifest is issued, not the original manifest issue date.
4. All supersedes that are not export or Division initiated must be submitted to the Division of Fruit and Vegetables within 14 days after

| APPROVED: | | Bureau: | Citrus |

the end of the original billing week. Any supersedes that are received by the Division of Fruit and Vegetables after the 14 days that are not export or Division of Fruit and Vegetables initiated ***will not be processed.***

5. To prevent errors in the Division's billing process (i.e., double billings), the superseded (erroneous) manifest number must be shown in the related manifest number field of the superseding (new) manifest record.
6. The manifest notice code recognized by the FreshNet system for a superseding manifest (the new manifest) is SU.

Failure to comply with the policy and procedures set forth for superseding manifests will result in "Supersede" manifest(s) to be BILLED.

Transferring Fruit

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|-----------------------------------|-------------------|-----------------------|
| SUBJECT: | Manifest Form No. D.F.V. PH-25 | No. 2-5 | Page 1 of 2 |
| | | Effective: | August 1, 2002 |
| | | Revised: | August 1, 2005 |
| APPROVED: | | Bureau: | Citrus |

I. TITLE: Transferring Fruit

II. PURPOSE

This policy and procedure is intended to provide guidelines on transferring fruit.

III. GENERAL

Once fruit has been inspected, manifested, and transported from the Packing House, the fruit will be billed even if the fruit is returned to the Packing House for any reason (ie, overloaded truck, refusal by a customer). A Packing House can avoid additional inspection fees by transferring the fruit.

IV. PROCEDURES

A. To avoid paying the inspection fee on fruit that has already been billed (ie, return shipment, between house purchase) the fruit must be transferred from the original manifest.

1. The following statement must appear in the body of Section I of the new manifest: ***"The following fruit has been transferred from manifest number XXXX". (See Attachment A)*** If the fruit is transferred from another Packing House the following statement must appear in the body of Section I of the new manifest: ***"The following fruit has been transferred from ABC (the name of the Packing House) manifest number XXXX". (See Attachment B)***
2. If the transfer manifest covers both billable and transfer fruit the above transfer statement should appear in the body of Section I as well as the detail information of each line of fruit that is to be transferred (ie, label, grade, variety size and quantity). **(See Attachment C)**

| APPROVED: | | Bureau: | Citrus |

- A. If a manifest has billable as well as transferred fruit, the related manifest number is to be placed in the field provided in the FreshNet side to avoid the transfer fruit from being billed.

- B. The manifest notice code recognized by the FreshNet system for a manifest that consists of **all transferred fruit** is **TR**.

Failure to comply with the policy and procedures set forth for transferring fruit will result in "Transferred" manifest(s) to be BILLED.

Manifest Accountability

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|--|-------------------|-----------------------|
| SUBJECT: | Manifest Accountability Form No. D.F.V. PH-25 | No. 3-1 | Page 1 of 2 |
| | | Effective: | August 1, 2002 |
| | | Revised: | |
| APPROVED: | | Bureau: | Citrus |

I. TITLE: Manifest Accountability

II. PURPOSE

This policy and procedure is intended to provide guidelines for Manifest Accountability.

III. GENERAL

The Division of Fruit and Vegetable is very pro-active in addressing the issue of manifest accountability. This to ensure that the Division of Fruit and Vegetables is collecting all revenues due to us.

IV. PROCEDURES

- A.** At the end of each citrus season after the last billing week has been billed, an audit on each Packing House will be completed.
- 1.** The Division must account for all manifest numbers. This includes billable manifest, void, supersede, accountability, storage, transfer, lemons, Bahama fruit, master manifest and those that are accidentally ruined or unusable.
 - 2.** A Packing House must notify the Division Fruit and Vegetables of any missing manifest number(s) or number ranges following the policy and procedure set forth in the Inspection Bureau Policy and Procedure No. 2-2 *Manifest Numbering*.
 - 3.** A Packing House must notify the Division of Fruit and Vegetables if manifests are purchased and/or borrowed following the policy and procedure set forth in the Inspection Bureau Policy and Procedure No. 2-2 *Manifest Numbering*.

Manifest Accountability (continued)

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|--|--|---|
| SUBJECT: | Manifest Accountability Form No. D.F.V. PH-25 | No. 3-1 Effective: Revised: | Page 2 of 2 August 1, 2002 |
| APPROVED: | | Bureau: | Citrus |

4. A Packing House must use manifests in sequential ascending number order as set forth in the Inspection Bureau Policy and Procedure No. *2-2 Manifest Numbering*.
- B. The Division of Fruit and Vegetables will notify in written form a Packing House of any sequential numeric order discrepancies. It is the Packing House's responsibility to supply the Division of Fruit and Vegetables with copies of the missing manifest number(s). If copies do not exist, it is the responsibility of the Packing House to supply the Division of Fruit and Vegetables with a written explanation of what happened to the manifest number(s) in question.
- C. The Division of Fruit and Vegetables will issue an invoice to a Packing House for any fees due on missing manifest(s) that are billable in nature.

System Downtime

DIVISION OF FRUIT AND VEGETABLES INSPECTION BUREAU POLICY AND PROCEDURES

| | | | |
|------------------|-----------------------------------|--|--|
| SUBJECT: | Downtime Form No. D.F.V. PH-25 | No. 4-1 Effective: Revised: | Page 1 of 1 August 1, 2002 August 1, 2005 |
| APPROVED: | | Bureau: | Citrus |

I. TITLE: System Downtime

II. PURPOSE

This policy and procedure is intended to provide guidelines for downtime on the FreshNet system.

III. GENERAL

There will be times that a Packing House may experience technical difficulty with their computer system and be unable to transmit data to the Division of Fruit and Vegetables.

IV. PROCEDURES

- A.** When a Packing House experiences downtime, they must notify the Division of Fruit and Vegetables immediately using a System Downtime/Re-Up Notification form. **(See Attachment A)** This form can be found on the Division's Citranet website, <https://citranet.fdacs.gov/FormsFNetList.html> and clicking on the System Downtime/Re-Up Notification link.
- B.** If a Packing House's system is down 1 to 3 business days they will save their upload and transmit to the Division of Fruit and Vegetables once their system is back on line. If a Packing House's system is down in excess of 3 business days or more all manifests generated during this time frame must be submitted to the Division of Fruit and Vegetables for manual input.
- C.** A Packing House will notify the Division of Fruit and Vegetables on a System Downtime/Re-Up Notification form when their system is back on line. **(See Attachment A)** This form can be found on the Division's Citranet website, <https://citranet.fdacs.gov/FormsFNetList.html> and clicking on the System Downtime/Re-Up Notification link.

| 1. NAME AND MAILING ADDRESS OF PERSON OR FIRM | 2. LOCATION |
| 3. REGULATED ARTICLE(S): Citrus Fruit | |
| 4. APPLICABLE STATE QUARANTINE(S) OR REGULATIONS: | |

I / We agree to handle, pack, process, and move regulated articles in accordance with applicable plant quarantines; use all permits and certificates in accordance with instructions; maintain and offer for inspection such records as may be required; and abide by the following stipulations:

- The fruit shipping season for this agreement will begin on _____ and will expire on _____.
Date Date
- A designated person shall be assigned the responsibility to implement and supervise the requirements of this agreement. The person's name and phone number shall be included in the following statement:

I/We, representing _____, do hereby designate and appoint _____
Company Name Name (Print)

Phone Number _____, as our agent who shall have full responsibility to see that all harvesting subcontractors comply with all requirements of this agreement.

- Citrus fruit that is processed through said packinghouse, under this agreement, shall come from sources certified by the Department as meeting all the necessary requirements as listed in the "Protocol for the Exportation of Fresh Fruits from Florida". A copy of the Protocol has been provided and is incorporated by reference.
- When receiving harvested certified fruit, each bin of fruit shall bear an orange identification card that is legible and visible to the inspector with the Caribbean Fruit Fly Certification Designated Area Number and/or letter suffix and date of harvest listed.
- Prior to harvesting bins being unloaded from a transport truck, all bins must be checked for any missing or non-legible orange identification cards. In order to maintain the identity of certified fruit, any missing cards must be replaced.
- The identity of certified fruit will be maintained at all times. Protocol fruit will be stored in segregated areas of the packinghouse which are accessible for inspection. Ample space must be allocated for separation of certified and non-certified fruit. Upon request to get an accurate count of Protocol fruit in the packinghouse, the receiving manager will make this information available to Protocol personnel.

Freshnet Shipper's Clerk Manual 2019

November 20, 2019

Caribbean Fruit Fly Certification Program Compliance Agreement (continued)

PACKINGHOUSE COMPLIANCE AGREEMENT

7. Protocol fruit will be packed only on well marked line(s) with signs provided by the Department. This will only occur under the direct supervision of a Department representative to ensure no mixing of fruit from non-designated areas or from other designated areas. When switching from one certified designated area to another certified designated area, fruit may be brought up to the second grading table and stopped until the remaining fruit on the line is packed or discarded, to prevent commingling. When running non-certified fruit prior to running certified fruit, the line(s) will be thoroughly cleaned and checked for any fruit which could be left from the previous run.
8. When dumping of Protocol certified fruit has started, a sample of the orange identification card for each designated area and a trip ticket with Typ-Reg-Sec and designated area will be hand carried to a Department representative or PIQ house official.
9. After each harvesting bin is dumped, all orange identification cards shall be removed and all bins completely emptied before bins are returned to the harvester.
10. As Protocol fruit is processed and packed, each carton shall be labeled with a special Caribbean Fruit Fly Certification stamp, as specified by the Department. The stamp will bear the designated area number and the appropriate wording in compliance with the Protocol. **All wording, numbers and alphabetical suffixes must be legible.** Labels that are incorrect or illegible will cause the citrus fruit to be disqualified for certification. Certification can be denied by the Department or its authorized representative.
11. All cartons of packed fruit, bearing the designated area number, shall be stored in a well-marked area with signs provided by the department, segregated from all other non-certified fruit and be accessible for inspection. Each individual pallet shall have an orange identification card for each designated area with the following information:
 - A. Designated Area Number;
 - B. Date harvested.

****It is of utmost importance that the identity of the certified fruit be maintained at all times. Should the identity of the certified fruit become questionable, certification may be refused and fruit disqualified for shipping under this compliance agreement.**
12. A Citrus Manifest shall accompany each shipment of certified fruit which shall be issued and signed by a representative of the Department at the time the shipment is loaded on the transporting vehicle. After loading is completed, Department seals shall be attached to each door latch and shall remain affixed until reaching its destination. Packinghouses shall assign a responsible person to place FDACS Division of Fruit and Vegetable seals on trailers upon completion of loading. Trailers not properly sealed on side and rear doors, will be rejected at ports of export.
13. It shall be the responsibility of your company or appointed agent to notify the appropriate Department inspector of all scheduled packing dates for fruit under this agreement. **Notice shall be given at least 24 hours in advance.**
14. Cartons marked for the Caribbean Fruit Fly Protocol cannot be used for cold treatment.
15. Any fruit that fails or is disqualified for not meeting Protocol requirements shall not be packed in cartons marked for Protocol. Cartons bearing a designated area number cannot be used to ship non-certified fruit or fruit from another designated area.

Fax: (863) 295-5184

written on 10/19/1998

MEMORANDUM

TO: All Shippers & Shipping Clerks
FROM: Joseph J. Whigham, Certification Specialist
SUBJECT: Off-Shore Export Requirements (Sealing Vehicles)

When two or more packing houses are loading fruit on one vehicle, in the past, we have allowed you to put on the document to be sealed at last loading. However, this has created problems of getting Phyto Sanitary Certification from PPQ and entering citrus producing states.

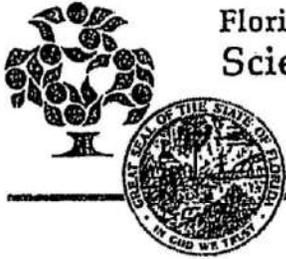

In the future, to avoid these problems, it will be necessary to seal the vehicle from the first and to the last pickup. The packinghouse issuing the documents for the last loading will break the seals, either by Inspector or PIQ person and note the new seal on all documents.

Telephone: 941-295-5950
FAX: 941-295-5919

Citrus Fruit Factsheet

Cold Treatment of Florida Grapefruit

Cold treatment is an approved quarantine treatment for citrus grown in areas infested with a number of tropical fruit flies. In Florida, the Caribbean fruit fly (*Anastrepha suspensa*) may be found in citrus groves during late spring and summer months. Cold treatment, as approved by the U.S. Department of Agriculture involves storage of fruit below 36°F (2.2°C) for specified periods to ensure their freedom from fly infestation. However, because of the susceptibility of grapefruit to extended storage at low temperatures, fruit may be stored at 50-60°F (10-15°C) for approximately one week to increase their resistance to chilling injury. This process, commonly referred to as "pre-conditioning" or simply "conditioning", helps maintain fruit quality. However, it is not a requirement of cold treatment.

Cold Treatment Requirements:

Standard and short cold treatment schedules are approved for grapefruit by the U.S. Department of Agriculture. The short schedule is approved for use on grapefruit grown in areas of low fly infestation. The following tables list the various time/temperature combinations required to achieve quarantine security.

| Standard Schedule | | | Short Schedule | | |
|-------------------|----------|----------|----------------|----------|----------|
| Days | Temp. F° | Temp. C° | Days | Temp. F° | Temp. C° |
| 14 | 33.0 | 0.6 | 10 | 33 | 0.6 |
| 16 | 33.5 | 0.8 | | | |
| 17 | 34.0 | 1.1 | 12 | 34 | 1.1 |
| 19 | 34.5 | 1.4 | | | |
| 20 | 35.0 | 1.7 | 14 | 35 | 1.7 |
| 22 | 35.5 | 1.9 | | | |
| 24 | 36.0 | 2.2 | 17 | 36 | 2.2 |

To maximize the potential for successful completion of cold treatment and enhance better fruit arrivals, the following recommendations are offered:

1. Utilize quality fruit from groves maintained under adequate irrigation and cultural practices. Harvest carefully to minimize mechanical injury, peel pitting and decay.
2. Avoid prolonged degreening to minimize certain types of decay.

* Prepared by M. A. Ismail, Ph.D. Scientific Research Director and G. E. Brown, Ph.D., Research Scientist III, Plant Pathologist, Florida Department of Citrus, Lake Alfred, FL, March 14, 1997

CITRUS CARIBBEAN FRUIT FLY PROTOCOL PROGRAM EASY STEP CERTIFICATION REQUIREMENTS

Call (772) 468-4092 for: host maps of your acreage, verification of host removal, establishment of traps and billing information.

Low Risk (Negative Trapping) Certification Requirements

Early Season Requirements for Korea:

- August 1st through December 20th
- Minimum size of 320 acres
- 1 1/2 mile buffer with no host
- Seven (7) days negative trapping for acreage to be certified

Standard Season Requirements for Japan, Texas and California:

- August 1st through April 15th
- Minimum size of 320 acres
- 1 1/2 mile buffer with no host
- Seven (7) days negative trapping for acreage to be certified
- May convert to bait spray areas for Post Standard Season

Standard Season Requirements for Korea:

- December 21st through end of season
- Minimum size of 320 acres
- 1 1/2 mile buffer with no host
- Thirty (30) days negative trapping for acreage to be certified

There is no Post Standard Season Low Risk (Negative Trapping) for Japan, Texas and California

Freshnet Shipper's Clerk Manual 2019

November 20, 2019

Certification for Caribbean Fruit Fly Program Export (continued)

Moderate Risk (Bait Spray) Certification Requirements

Early Season Requirements for Korea:

- August 1st through December 20th
- Minimum size of 40 acres
- 300 foot buffer
- Ten (10) days trapping
- Apply 1st aerial application seven (7) days prior to harvest, aerial application must be applied every seven (7) to ten (10) days during harvest

Standard Season Requirements for Japan, Texas and California:

- August 1st through April 15th
- Minimum size of 40 acres
- 300 foot buffer
- Ten (10) days trapping
- **Note: Areas unable to clear 1/2 mile for Post Standard Season shall begin aerial applications March 16th every seven (7) to ten (10) days in order to harvest during the Post Standard Season beginning April 16th**

Standard Season Requirements for Korea:

- December 21st through end of season
- Minimum size of 40 acres
- 1/2 mile buffer
- Thirty (30) days trapping
- Aerial application seven (7) days prior to harvest and every seven (7) to ten (10) days during harvest **OR** if grove cannot meet the 1/2 mile buffer requirement, bait spray applications must begin twenty-eight (28) days prior to harvest, and continue every seven (7) to ten (10) days until end of harvest.

Post Standard Season Requirements for Japan, Texas and California:

Moderate Risk (Bait Spray) will be the only method of certification during the Post Standard Season

- April 16th through end of season
- Minimum size 40 acres
- 10 days trapping
- Aerial application shall be applied beginning April 16 every seven (7) to ten (10) days until end of harvest **OR** if grove cannot meet the 1/2 mile buffer requirement, 30 days trapping and bait spray applications must begin March 16 and continue every seven (7) to ten (10) days until end of harvest.
